A high-angle, close-up photograph of various dried fruits, nuts, and seeds. The items are arranged on a dark, textured wooden surface. In the background, several white and dark bowls are filled with different types of nuts, including almonds, walnuts, and hazelnuts. In the foreground, several wooden spoons are scattered, each holding a different type of seed or nut: one with sliced almonds, one with green pumpkin seeds, one with orange corn cobs, and one with red goji berries. There are also some loose nuts and seeds scattered on the wooden surface. The lighting is warm and natural, highlighting the textures and colors of the ingredients.

dried fruit, nuts, pulses & seeds
